Forecast for Tuesday 16 Jul 2024

Weather: Cloudy with areas of rain, heavy at times, moving across the park during the early hours of the morning. Rain should gradually clear to the east later on Tuesday morning. Becoming brighter with an increasing number of sunny spells during the afternoon and into the evening.

Chance of cloud-free hill tops above 600m: 20% becoming 80%.

Low cloud and visibility: Widespread cloud above 400-600m at first, most persistent in the west. Becoming patchy above 700m by midday and lifting above summits by the end of the afternoon. Generally good visibility but occasionally moderate or poor in rain and very poor in low cloud.

Meteorologist's View

Paths and slopes will be slippery following morning rainfall. But despite the cloudy start, UV levels will still be high during the afternoon's brighter and sunny spells.

Recent rainfall: measured at Neuadd: altitude 353m

Forecast for Wednesday 17 Jul 2024

Weather: Early mist and fog patches clearing after dawn to leave a pleasant and dry day with a good number of sunny spells throughout. High UV levels.

Maximum wind: 10-15 mph southwesterly winds on the hills.

Chance of cloud-free hill tops above 600m: 70% in the early hours, rising to 90% or higher.

Low cloud and visibility: Fog patches developing in the valleys first thing, then lifting through the morning and perhaps briefly covering hills for a time. Cloud remaining above the summits for the rest of the day with very good visibility.

Temperature: **Valleys:** Plus 12 Celsius, rising to plus 20 Celsius.
At 600m: Plus 9 Celsius, rising to plus 14 Celsius.
Freezing level: Above the summits.
